Dears,

I would like to express my deepest gratitude for your generous donation of essential electronic materials (namely, *one heavy duty duplicator, two multipurpose photocopiers, two high speed desktop computers, three LCD projectors, three outdoor wireless routers, and other additional spare parts*) worth of **1,000,000 (ONE MILLION) ETB** to Kallamino Special High School. Your donation makes a significant difference, helping us enhance the teaching learning environment in numerous ways:

- The digital duplicator and multipurpose photocopiers will help us streamline our printing, copying and scanning services, satisfying fairly enough not just the current demand but also the projected demand in the years to come.
- The LCD projectors are invaluable tools in creating more dynamic and engaging classroom and seminar presentations by our teachers and students.
- The relatively high-speed desktop computers will host the e-learning and student information management systems that we are about to introduce soon.
- The wireless outdoor routers will significantly enhance access to the Internet on the school premises.

Your generosity in general reflects a profound commitment to your former school and demonstrates the positive impact that the alumni can potentially have on empowering the School. The School is proud to have alumni like you and we assure you that your contributions will undoubtedly enhance our academic services. Once again, thank you for your inspiring and timely generous donations, and we look forward to continuing such a wonderful engagement.

Sincerely yours,

Merhawi Abreha (PhD)

Managing Director
